## TheFence Innovations

- 

**Embedded AI**  
The first AI co-pilot in UAR and AI-powered access profiling solution in the industry.
- 

**Lightweight hybrid platform**  
Easy-to-deploy, resource-friendly, modular solution stack.
- 

**Granular depth**  
Access risk discovery at the deepest level of elementary entitlement objects.
- 

**Cross-system SoD**  
Ability to detect cross-application conflicts of interest.
- 

**Risk scoring**  
Scoring-based, AI-supported access risk measurement system.
