

AI-Powered Access Platform

TheFence is a modularly built, next generation **identity governance and administration (IGA) platform** tailored for organizations of all sizes.

Automated **Modular** **AI-powered** **Lightweight**

TheFence Innovations

Embedded AI

The first AI co-pilot for decision support (UAR) and AI-profiler (DAPP) in the industry.

Lightweight hybrid platform

Easy-to-deploy, resource-friendly, modular solution stack.

Granular depth

Access risk discovery at the deepest level of elementary entitlement objects.

Cross-system SoD

Ability to detect cross-application conflicts of interest.

Risk scoring

Scoring-based, AI-supported access risk measurement system.
