

# AI-Powered Access Platform

TheFence is a modularly built, next generation **identity security and access management platform** tailored for organizations of all sizes.

**Automated**

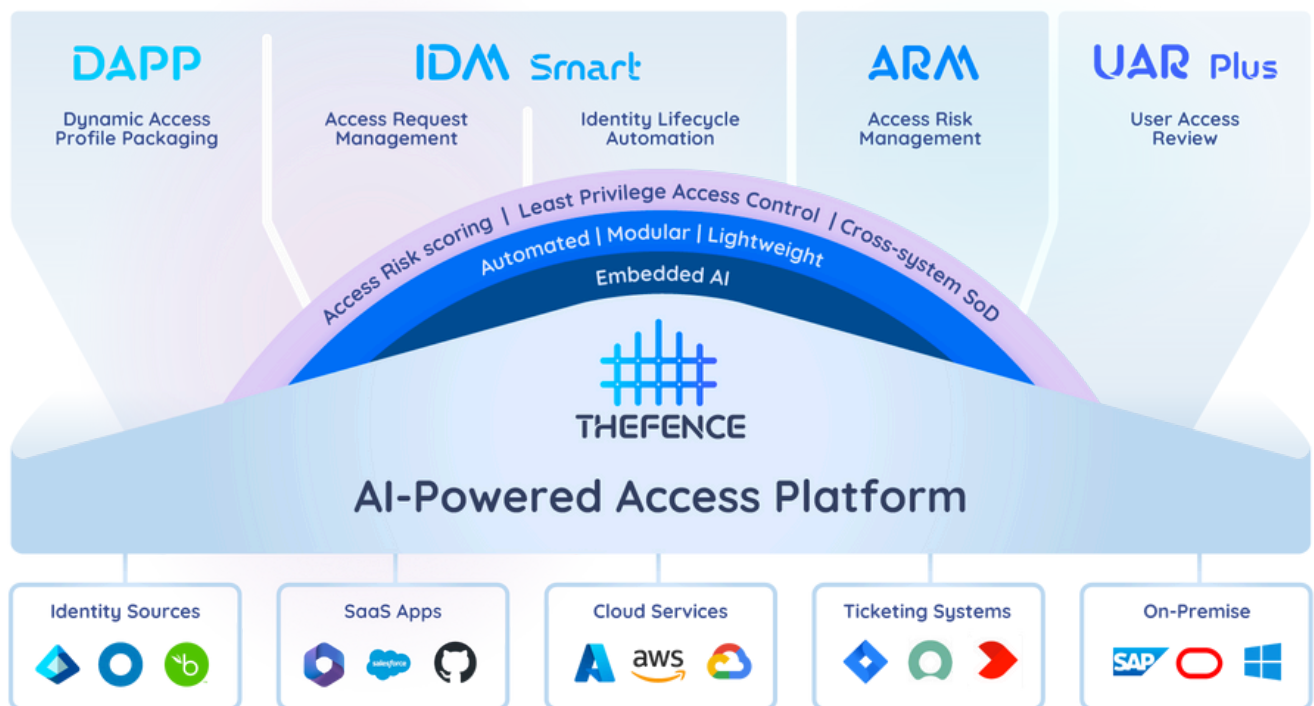

**Modular**

**AI-powered**

**Lightweight**

## TheFence Innovations

### Embedded AI

The first AI co-pilot for decision support (UAR) and AI-profiler (DAPP) in the industry.

### Lightweight hybrid platform

Easy-to-deploy, resource-friendly, modular solution stack.

### Granular depth

Access risk discovery at the deepest level of elementary entitlement objects.

### Cross-system SoD

Ability to detect cross-application conflicts of interest.

### Risk scoring

Scoring-based, AI-supported access risk measurement system.
